## RATINGS KEY OUTLOOK WATCH

POSITIVE	⊕	◇
NEGATIVE	⊖	◇
EVOLVING	◊	◆
STABLE	○	

## Transaction Summary

The transaction comprises fully amortising Spanish residential mortgages serviced by Banco de Sabadell S.A. (BBB-/Stable/F3).

## KEY RATING DRIVERS

**Iberian Recovery-Rate Assumptions Updated:** In the update of its European RMBS Rating Criteria released on 16 December 2022, Fitch updated its recovery-rate assumptions for Spain to reflect smaller house price declines and foreclosure sales adjustment, which have had a positive impact on recovery rates and, consequently, Fitch's expected loss in Spanish RMBS transactions. This is reflected in the upgrades of TDA CAM 6 and 7 class B notes, and TDA CAM 8 and 9 class C notes.

**Mild Weakening in Asset Performance:** The rating actions reflect our expectation of mild deterioration of asset performance, consistent with a weaker macroeconomic outlook linked to inflationary pressures that negatively affect real household wages and disposable income. The transactions have a low share of loans in arrears over 90 days (less than 0.5% as of January 2023) and are protected by substantial seasoning of the portfolios (more than 15 years).

**PIR Cap Removed for Some:** Fitch now views payment interruption risk (PIR) in TDA CAM 6, 7 and 8 as mitigated in the event of a servicer disruption by a cash reserve fund (RF) that is sufficient to cover stressed senior fees, net swap payments and senior notes interest due amounts while an alternative servicer arrangement is being implemented. Fitch expects the RF to remain sufficiently funded in the medium term based on our expectations for the transaction's performance. As a result, Fitch has removed the 'A+sf' cap on the notes' rating in line with its Structured Finance and Covered Bonds Counterparty Rating Criteria.

**TDA CAM 9's PIR Remains:** Fitch views TDA CAM 9 as being still exposed to PIR in a servicer disruption as its RF has been volatile in the past and it is only at 35% of its target amount. As cash collections are transferred to the transaction account bank (TAB) within two days and the collection account bank is an operational continuity bank, the notes' maximum achievable ratings are commensurate with the

'Asf' category, in line with Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

**Deferrals Cap Ratings at Non-IG:** TDA CAM 7 class B and TDA CAM 8 and 9 class B and C interest payments are subordinated by a non-reversible trigger breach relative to gross cumulative defaults. Due to this subordination, interest payments are expected to be deferred for a long period and paid only after full redemption of the senior class A notes under their current ratings. Due to the length of the interest deferral period, Fitch does not view these notes as compatible with ratings in the investment-grade category.

**Counterparty Risk Caps Rating:** The rating of TDA CAM 5 class B notes, following its upgrade, is now capped at the TAB provider's, Societe Generale, S.A., deposit ratings of 'A'/F1' as the cash RF represents the notes' only source of credit enhancement (CE). The rating cap reflects excessive counterparty dependence on the TAB holding the cash reserves in accordance with Fitch's Structure Finance and Covered Bonds Counterparty Rating Criteria.

**Mixed CE Trends:** The rating actions reflect Fitch's view that the notes are sufficiently protected by CE to absorb the projected losses that are commensurate with their prevailing and higher rating scenarios. For TDA CAM 5, 7 and 9, we expect CE ratios to continue increasing due to the sequential amortisation of the notes.

For TDA CAM 6, we expect CE ratios to decline in the medium term, if the RF is permitted to amortise to its absolute floor, subject to certain performance-based triggers, before remaining broadly stable as the notes amortise pro-rata, as is currently the case for TDA CAM 8.

ESG Factor

TDA CAM 9 has an Environmental, Social and Governance (ESG) Relevance Score of '5' for Transaction & Collateral Structure due to PIR, which results in the ratings being at least one category lower than they would otherwise be.

## RATING SENSITIVITIES

### Factors that could, individually or collectively, lead to negative rating action/downgrade:

-For the notes that are rated at 'AAAsf, a downgrade to Spain's Long-Term Issuer Default Rating (IDR) that could decrease the maximum achievable rating for Spanish structured finance transactions

-For TDA CAM 5 class B notes, a downgrade of the TAB provider's deposit rating as the notes rating is capped at the bank's ratings due to excessive counterparty risk exposure

-Long-term asset performance deterioration such as increased delinquencies or larger defaults, which could be driven by changes to macroeconomic conditions, interest rate increases or borrower behaviour

### Factors that could, individually or collectively, lead to positive rating action/upgrade:

-Notes rated at 'AAAsf' are at the highest level on Fitch's rating scale and cannot be upgraded

-For TDA CAM 9 class A notes, improved liquidity protection against PIR

-For TDA CAM 7 class B, and TDA CAM 8 and 9 class B and C notes, improved protection to limit the length of interest deferrals

-For all junior notes, stable to improved asset performance driven by lower-than-expected delinquencies and defaults would lead to increasing CE levels and, potentially, upgrades

### **Best/Worst Case Rating Scenario**

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

### **USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10**

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

### **DATA ADEQUACY**

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Overall, and together with any assumptions referred to above, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

### **REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING**

The principal sources of information used in the analysis are described in the Applicable Criteria.

### **PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS**

TDA CAM 5 class B notes are capped at the issuer account bank 's deposit rating because the notes are exposed to excessive counterparty risk.

## **ESG Considerations**

TDA CAM 9 has an ESG Relevance Score of '5' for Transaction & Collateral Structure due to payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a lower rating of at least one category

For TDA CAM 6, 7 and 8 Fitch has revised the ESG Relevance Score for PIR to '3' from '5', reflecting that updated PIR analysis is no longer a constraint on senior ratings.

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit [www.fitchratings.com/esg](http://www.fitchratings.com/esg)

## DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link: <https://www.fitchratings.com/understandingcreditratings>. In addition, the following <https://www.fitchratings.com/rating-definitions-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. ESMA and the FCA are required to publish historical default rates in a central repository in accordance with Articles 11(2) of Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 and The Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019 respectively.

Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any

verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

## **Endorsement policy**

Fitch's international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch's approach to endorsement in the EU and the UK can be found on Fitch's [Regulatory Affairs](#) page on Fitch's website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
