DBRS Morningstar Confirms Ratings on Auto ABS Spanish Loans 2016, Fondo de Titulización

AUTO

DBRS Ratings GmbH (DBRS Morningstar) confirmed its ratings on the Class A Notes and Class B Notes (together, the Notes) issued by Auto ABS Spanish Loans 2016, Fondo de Titulización (the Issuer) at AAA (sf) and AA (high) (sf), respectively.

The ratings address the timely payment of interest and the ultimate payment of principal on or before the legal final maturity date in September 2032.

The confirmations follow an annual review of the transaction and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies, defaults, and losses as of the May 2020 payment date;
- Probability of default (PD), loss given default (LGD), and expected loss assumptions on the remaining receivables;
- Current available credit enhancement to the notes to cover the expected losses at their respective rating levels;
- Current economic environment and an assessment of sustainable performance, as a result of the Coronavirus Disease (COVID-19) pandemic.

The Issuer is a Spanish securitisation of auto loan receivables granted and serviced by PSA Financial Services Spain EFC S.A. (PSA Spain), a joint venture equally held by Banque PSA Finance and Santander Consumer Finance SA (SCF). The transaction closed in October 2016 and had an 18-month revolving period that ended in March 2018.

PORTFOLIO PERFORMANCE

As of the May 2020 payment date, loans that were one-to-two months and two-to-three months delinquent represented 1.1% and 0.4% of the principal outstanding balance of the portfolio, respectively, while loans that were more than three months delinquent represented 0.2%. Gross cumulative defaults amounted to 0.5% of the aggregate original portfolio balance, with cumulative recoveries of 40.7% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

DBRS Morningstar conducted a loan-by-loan analysis of the remaining pool of receivables and has updated its base case PD and LGD assumptions to 2.6% and 55.9%, respectively.

CREDIT ENHANCEMENT

The subordination of the junior obligations and the cash reserve provides credit enhancement to the rated notes. As of the May 2020 payment date, credit enhancement to the Class A and Class B Notes was 43.3% and 16.7%, up from 24.4% and 9.9% at last annual review in June 2019, respectively.

The cash reserve is available to cover senior expenses and missed interest payments on the Notes. The cash reserve was funded at closing with EUR 6.2 million and its required balance is equal to 1.7% of the aggregate balance of the Class A, Class B, and Class C Notes balance, subject to a EUR 3.1 million floor. The cash reserve is currently at its target of EUR 3.4 million.

The Commingling Reserve will be available to cover seniors fees, swap payments, interest to the Class A, Class B, and Class C Notes, and payment due under the Principal Priority of Payments up to the Class C Notes, if a servicer replacement event occurs. This account was funded at closing with EUR 25.2 million and its required balance is equal to 3.5% of the nondefaulted portfolio balance. The Commingling Reserve Account stood at EUR 7.1 million as of the May 2020 Payment Date.

SCF acts as the account bank for the transaction. Based on the DBRS Morningstar private rating of SCF, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transaction structure, DBRS Morningstar considers the risk arising from the exposure to the account bank to be consistent with the rating assigned to the Notes, as described in DBRS Morningstar's "Legal Criteria for European Structured Finance Transactions" methodology.

ABN AMRO Bank N.V. (ABN) acts as the swap counterparty for the transaction. DBRS Morningstar's public Long-Term Critical Obligations Rating of ABN at AA is consistent with the First Rating Threshold as described in DBRS Morningstar's "Derivative Criteria for European Structured Finance Transactions" methodology.

DBRS Morningstar analysed the transaction structure in Intex DealMaker.

The Coronavirus Disease (COVID-19) and the resulting isolation measures have caused an economic contraction, leading to sharp increases in unemployment rates and income reductions for many borrowers. DBRS Morningstar anticipates that delinquencies may arise in the coming months for many ABS transactions, some meaningfully. The ratings are based on additional analysis and adjustments to expected performance as a result of the global efforts to contain the spread of the coronavirus. For this transaction, DBRS Morningstar applied an additional haircut to its base case recovery rate.

On 16 April 2020, the DBRS Morningstar Sovereign group released a set of macroeconomic scenarios for the 2020-22 period in select economies. These scenarios were updated on 1 June 2020. For details see the following commentaries: <https://www.dbrsmorningstar.com/research/361867/global-macroeconomic-scenarios-june-update> and <https://www.dbrsmorningstar.com/research/359903/global-macroeconomic-scenarios-application-to-credit-ratings>. The DBRS Morningstar analysis considered impacts consistent with the moderate scenario in the referenced reports.

On 8 May 2020, DBRS Morningstar published a commentary outlining how the coronavirus crisis is likely to affect DBRS Morningstar-rated ABS transactions in Europe. For more details please see <https://www.dbrsmorningstar.com/research/360734/european-abs-transactions-risk-exposure-to-coronavirus-covid-19-effect> and <https://www.dbrsmorningstar.com/research/362712/european-structured-finance-covid-19-credit-risk-exposure-roadmap>.

For more information regarding rating methodologies and Coronavirus Disease (COVID-19), please see the following DBRS Morningstar press release: <https://www.dbrsmorningstar.com/research/357883>.

ESG CONSIDERATIONS

A description of how DBRS Morningstar considers ESG factors within the DBRS Morningstar analytical framework and its methodologies can be found at: <https://www.dbrsmorningstar.com/research/357792>.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable to the ratings is the “Master European Structured Finance Surveillance Methodology” (22 April 2020). DBRS Morningstar has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transaction legal documents was not conducted as the legal documents have remained unchanged since the most recent rating action.

Other methodologies referenced in this transaction are listed at the end of this press release. These may be found at: <https://www.dbrsmorningstar.com/about/methodologies>.

For a more detailed discussion of the sovereign risk impact on Structured Finance ratings, please refer to “Appendix C: The Impact of Sovereign Ratings on Other DBRS Credit Ratings” of the “Global Methodology for Rating Sovereign Governments” at: <https://www.dbrsmorningstar.com/research/350410/global-methodology-for-rating-sovereign-governments>.

The sources of data and information used for these ratings include transaction reports provided by Titulización de Activos, S.G.F.T., S.A (the Management Company) and loan-level data provided by the European DataWarehouse GmbH.

DBRS Morningstar does not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial rating, DBRS Morningstar was supplied with third-party assessments. However, this did not impact the rating analysis.

DBRS Morningstar considers the data and information available to it for the purposes of providing these ratings to be of satisfactory quality.

DBRS Morningstar does not audit or independently verify the data or information it receives in connection with the rating process.

The last rating action on this transaction took place on 26 July 2019, when DBRS Morningstar confirmed the rating of the Class A Notes at AAA (sf) and upgraded the rating of the Class B Notes to AA (high) (sf) from AA (low) (sf).

The lead analyst responsibilities for this transaction have been transferred to Petter Wettestad.

Information regarding DBRS Morningstar ratings, including definitions, policies, and methodologies is available at www.dbrsmorningstar.com.

To assess the impact of changing the transaction parameters on the ratings, DBRS Morningstar considered the following stress scenarios as compared with the parameters used to determine the ratings (the base case):

- DBRS Morningstar expected a lifetime base case PD and LGD for the pool based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.
- The base case PD and LGD of the current pool of loans for the Issuer are 2.6% and 55.9%, respectively.
- The Risk Sensitivity overview below illustrates the ratings expected if the PD and LGD increase by a certain percentage over the base case assumption. For example, if the LGD increases by 50%, the rating of the Class A Notes would be expected to remain at AAA (sf), assuming no change in the PD. If the PD increases by 50%, the rating of the Class A Notes would be expected to remain at AAA (sf), assuming no change in the LGD. Furthermore, if both the PD and LGD increase by 50%, the rating of the Class A Notes would be expected to remain at AAA (sf).

Class A Notes Risk Sensitivity:

- 25% increase in LGD, expected rating of AAA (sf)
- 50% increase in LGD, expected rating of AAA (sf)
- 25% increase in PD, expected rating of AAA (sf)
- 50% increase in PD, expected rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected rating of AAA (sf)

Class B Notes Risk Sensitivity:

- 25% increase in LGD, expected rating of AA (high) (sf)
- 50% increase in LGD, expected rating of AA (high) (sf)
- 25% increase in PD, expected rating of AA (high) (sf)
- 50% increase in PD, expected rating of AA (high) (sf)
- 25% increase in PD and 25% increase in LGD, expected rating of AA (high) (sf)
- 25% increase in PD and 50% increase in LGD, expected rating of AA (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected rating of AA (high) (sf)
