

PRESS RELEASE

## CNMV CREATES A COMMUNICATION CHANNEL TO PROCESS ENQUIRIES FROM COMPANIES INTERESTED IN LISTING

04 July 2022

- Any questions for CNMV can be made in the following e-mail: [preguntasypreguntasprimarios@cnmv.es](mailto:preguntasypreguntasprimarios@cnmv.es)

The Spanish National Securities Market Commission (CNMV) has set up a specific single point of contact to manage any enquiries from companies interested in more information on the requirements associated with listing.

CNMV wants to provide those companies and their relevant shareholders who are considering a possible listing of their shares, a special channel for information on all kinds of issues related to listing in the stock exchange, such as legal requirements, procedures, etc. Those interested must send any questions for CNMV by contacting the Primary Market Department at the e-mail below [preguntasypreguntasprimarios@cnmv.es](mailto:preguntasypreguntasprimarios@cnmv.es).

Any enquiries must include certain contact information of the sender, as well as state the issue in a clear and precise way, and an answer will be provided in writing by e-mail.

With this measure, CNMV reinforces its commitment to promote capital markets as a source of financing for economic recovery, one of the four strategic lines set by CNMV for 2021-2022. Moreover, it is one of the undertakings included in the organisation's Activity Plan for 2022.

Information on the establishment of the contact point for companies and additional information in this regard has also been included in section "8. Contact point for enquiries concerning listings" of the "Q&As on the regime for prospectuses to be published in public offerings and admissions to trading on regulated markets" document that can be accessed through [this link](#).
