Fitch Affirms 3 Rural Hipotecario Spanish RMBS Transactions

Fitch Ratings-Madrid-30 July 2020:

Fitch Ratings has affirmed eight tranches of three Rural Hipotecario Spanish RMBS transactions and removed four tranches from Rating Watch Negative (RWN). The Outlooks are Stable. A full list of rating actions is below.

Rural Hipotecario XIV, FTA

----A ES0374268003; Long Term Rating; Affirmed; A+sf; RO:Sta

----B ES0374268011; Long Term Rating; Affirmed; Asf; RO:Sta

Rural Hipotecario XI, FTA

----Class A ES0323975005; Long Term Rating; Affirmed; A+sf; RO:Sta

----Class B ES0323975013; Long Term Rating; Affirmed; A+sf; RO:Sta

----Class C ES0323975021; Long Term Rating; Affirmed; Asf; RO:Sta

Rural Hipotecario XII, FTA

----Class A ES0323976003; Long Term Rating; Affirmed; A+sf; RO:Sta

----Class B ES0323976011; Long Term Rating; Affirmed; A+sf; RO:Sta

----Class C ES0323976029; Long Term Rating; Affirmed; Asf; RO:Sta

Transaction Summary

The transactions comprise residential mortgages originated and serviced by multiple rural savings banks in Spain with a back-up servicer arrangement with Banco Cooperativo Espanol S.A. (BBB/Negative/F2).

KEY RATING DRIVERS

COVID-19 Additional Stress Assumptions

Fitch has identified additional stress scenarios to be applied in conjunction with its European RMBS Rating Criteria in response to the coronavirus outbreak and the recent legislative developments in

Catalonia (see: EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic and Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia). The agency applied these additional stresses for the rating analysis, including the resolution of any notes on RWN.

In order to capture the possible build-up of arrears in the following months due to the COVID-19 crisis, we have performed an arrears sensitivity, which consists of increasing the default rate by 10%. Despite our expectation of a deterioration in asset performance, the transactions have some mitigants, such as the very high portfolio seasoning (around 11- 13 years). We have not made an additional adjustment for payment holidays given that the level in the Spanish market stands at around 9%, which is low compared with other European countries such as the UK or Italy. The reserve funds are also sufficient to cover transaction costs, net swap payments and interest due on the senior notes for several periods.

Notes off RWN

The review removes Rural XI's class C notes, Rural XII's class B and C notes and Rural XIV's class B notes from RWN. The affirmations and Stable Outlooks reflect that in our view credit enhancement (CE) is sufficient to mitigate the risks associated with the COVID-19 crisis and the longer recovery timings on properties located in Catalonia. We expect CE ratios for Rural XI and Rural XII to remain broadly stable given the pro-rata amortisation of the transactions, while we expect the CE ratios of Rural XIV to continue increasing given the strictly sequential amortisation.

Rating Caps due to Counterparty Arrangements

The notes' ratings are capped at 'A+sf' due to the account bank minimum rating thresholds of 'BBB+' and 'F2', which are not compatible with 'AA' or 'AAA' rating categories as per Fitch's counterparty criteria. Moreover, the junior notes of all three transactions are capped at the SPV account bank's (Banco Santander S.A - Rural XII and XIV, Societe Generale S.A. - Rural XI) deposit rating of 'A' as the transactions' cash reserves held at these entities represent a material source of credit enhancement for these classes.

Performance Trends

The transactions continue to show sound asset performance with three-month plus arrears (excluding defaults) as a percentage of the current pool balance being less than 1% as of the latest reporting date and excess spread sufficient to cover defaulted amounts. The performance adjustment factor parameter within Fitch's analysis of Rural XIV's portfolio has been kept at 100% as per the agency's European RMBS Rating Criteria, as we consider the reported default data insufficiently reliable due to possible asset buy backs by the originators in the past linked to

interest rate floor clauses.

Regional Concentration

The three portfolios are exposed to substantial geographic concentration risk, mainly to the regions of Comunidad Valenciana (around 35% of Rural XI's portfolio balance), Castilla La Mancha (around 36% of Rural XII's portfolio balance) and Aragon (around 88% of Rural XIV's portfolio balance). Fitch has applied a higher set of rating multiples to the base foreclosure frequency assumption to the portion of the portfolio that exceeds 2.5x the population within these regions.

ESG Considerations - Governance

Rural XI, XII and XIV have an Environmental, Social and Governance (ESG) Relevance Score of 5 for Transaction Parties & Operational Risk due to excessive counterparty risk, which has a negative impact on the credit profile, and is highly relevant to the ratings, resulting in a change to the ratings of more than one category.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Rural XIV's class B and Rural XI and XII's class C ratings are capped at the SPV account bank provider's deposit rating. An upgrade to the account bank rating could trigger an upgrade of these notes' ratings.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

Liquidity positions weaken due to large take ups on mortgage payment moratoriums and new defaults, eg as a consequence of the coronavirus crisis.

A longer-than-expected coronavirus crisis that deteriorates macroeconomic fundamentals and the mortgage market in Spain beyond Fitch's current base case. CE cannot fully compensate the credit losses and cash flow stresses associated with the higher stresses, all else being equal.

As outlined in "Fitch Ratings Coronavirus Scenarios: Baseline and Downside Cases", we consider a more severe downside coronavirus scenario for sensitivity purposes whereby a more severe and prolonged period of stress is assumed with a halting recovery from 2Q21. Under this scenario, Fitch's analysis uses a 15% weighted average foreclosure frequency (WAFF) increase and a 15% decrease in the weighted average recovery rate (WARR). This scenario could lead to the class C notes of Rural XI being downgraded to 'A-sf' while other notes are unchanged.

Best/Worst Case Rating Scenario

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring. Fitch did not undertake a review of the information provided about the underlying asset pool ahead of the transactions' initial closing. The subsequent performance of the transaction over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

Junior notes are capped at the deposit ratings of the account banks (Societe Generale - Rural XI,

Banco Santander - Rural XII and XIV) due to excessive counterparty exposure.

ESG Considerations

Rural XI, XII and XIV have an Environmental, Social and Governance (ESG) Relevance Score of 5 for Transaction Parties & Operational Risk due to excessive counterparty risk, which has a negative impact on the credit profile, and is highly relevant to the ratings, resulting in a change to the ratings of more than one category.

Except for the matters discussed above, the highest level of ESG credit relevance, if present, is a score of 3 - ESG issues are credit neutral or have only a minimal credit impact on the transactions, either due to their nature or the way in which they are being managed. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a

substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001. Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

ENDORSEMENT POLICY - Fitch's approach to ratings endorsement so that ratings produced outside the EU may be used by regulated entities within the EU for regulatory purposes, pursuant to the terms of the EU Regulation with respect to credit rating agencies, can be found on the [EU Regulatory Disclosures](#) page. The endorsement status of all International ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for all structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
