Loan Income

€m

Net interest income remains stable (-0.4% YoY).

- ▶ In the third quarter, net interest income decreased by 3.0% QoQ mainly due to the negative impact of the cost of the senior preferred debt issued in June and the negative impact of the TLTRO.

Retail margin grows 12.6% in the quarter (+€11.5m) thanks to the positive impact of the repricing of the loan portfolio (loan yield improves 17 b.p. in the quarter).

- ▶ Loan income in September is already more than 25% higher than at the beginning of the year.

Ibercaja expects a significant improvement of net interest income already in 4Q.

Net fee income

Net fee income YoY

€m

Net fee income evolution

€m

Net fee income increased 4.1% YoY or €13m entirely explained by the growth in banking commissions.

- ▶ Banking commissions grow by €14m or 13.4% YoY supported by the increase in commercial activity and new tariffs implemented last year.
- ▶ Non-banking commissions decrease €1m as a result of the fall in assets under management due to market volatility.
