DBRS Morningstar Confirms Ratings on Driver España six, Fondo de Titulización

AUTO

DBRS Ratings GmbH (DBRS Morningstar) confirmed its ratings on the Class A and Class B Notes (together, the Notes) issued by Driver España six, Fondo de Titulización (the Issuer) at AAA (sf) and AA (sf), respectively.

The ratings on the Notes address the timely payment of interest and the ultimate repayment of principal on or before the Final Maturity Date on 23 September 2030.

The confirmations follow an annual review of the transaction and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies, defaults, and losses.
- Probability of default (PD), loss given default (LGD), and expected loss assumptions on the remaining receivables.
- Current available credit enhancement to the Notes to cover the expected losses at their respective rating levels.
- Current economic environment and an assessment of sustainable performance, as a result of the Coronavirus Disease (COVID-19) pandemic.

The transaction is a static securitisation of Spanish auto loans originated and serviced by Volkswagen Bank GmbH (Spanish Branch) (VWSB), formerly Volkswagen Finance, S.A., E.F.C. As of the January 2022 payment date, the EUR 443.0 million portfolio consisted of loans granted to both private (86.1% of the outstanding discounted principal balance) and corporate (13.9%) clients for the purchase of new (76.8%) and used (23.2%) vehicles.

PORTFOLIO PERFORMANCE

As of January 2022, loans that were one to two months and two to three months in arrears represented 0.4% and 0.2% of the outstanding portfolio balance, respectively, while loans more than three months delinquent represented 0.4%. The gross cumulative defaults amounted to 0.3% of the aggregate initial portfolio balance, with cumulative recoveries of 22.8% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

DBRS Morningstar updated its base case PD and LGD assumptions to 1.7% and 60.8%, respectively, based on the current portfolio composition as of the January 2022 payment date.

CREDIT ENHANCEMENT

The subordination of the junior obligations provides credit enhancement to the Notes. The transaction has a sequential/pro rata amortisation structure. Since closing, the Notes were amortising on a sequential basis up until the Class A and Class B Notes' overcollateralisation (OC) reached 21.0% and 14.5%, respectively, in September 2021. Since then, the Notes have been amortising on a pro rata basis and will continue to do so until certain triggers are breached.

The transaction benefits from a cash collateral account available to cover senior expenses and missed interest payments on the Notes. The cash collateral account was funded at closing with EUR 14.5 million and its required balance is equal to 1.3% of the

aggregate portfolio discounted balance, subject to a EUR 12.3 million floor. Since the closing date, the cash collateral account has been at its target level and currently stands at its floor of EUR 12.3 million.

BNP Paribas Securities Services, Spanish branch acts as the account bank for the transaction. Based on the DBRS Morningstar private rating of BNP Paribas Securities Services, Spanish branch, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transaction structure, DBRS Morningstar considers the risk arising from the exposure to the account bank to be consistent with the ratings assigned to the Notes, as described in DBRS Morningstar's "Legal Criteria for European Structured Finance Transactions" methodology.

DZ BANK AG Deutsche Zentral-Genossenschaftsbank (DZ BANK) acts as the swap counterparty for the transaction. The current Long Term Critical Obligations Rating of DZ BANK at AA is consistent with the First Rating Threshold as defined in DBRS Morningstar's "Derivative Criteria for European Structured Finance Transactions" methodology.

DBRS Morningstar analysed the transaction structure in Intex DealMaker.

The Coronavirus Disease (COVID-19) and the resulting isolation measures have caused an immediate economic contraction, leading in some cases to increases in unemployment rates and income reductions for many borrowers. DBRS Morningstar anticipates that delinquencies may continue to increase in the coming months for many ABS transactions, some meaningfully. The ratings are based on additional analysis to expected performance as a result of the global efforts to contain the spread of the coronavirus.

The DBRS Morningstar Sovereign group releases baseline macroeconomic scenarios for rated sovereigns. These scenarios were last updated on 9 December 2021. DBRS Morningstar analysis considered impacts consistent with the baseline scenario in the below referenced report. For details, see the following commentaries: <https://www.dbrsmorningstar.com/research/389454/baseline-macroeconomic-scenarios-for-rated-sovereigns-december-2021-update> and <https://www.dbrsmorningstar.com/research/384482/baseline-macroeconomic-scenarios-application-to-credit-ratings>.

On 2 November 2021, DBRS Morningstar updated its 8 May 2020 commentary outlining the impact of the coronavirus crisis on performance of DBRS Morningstar-rated auto ABS transactions in Europe. For more details, please see: <https://www.dbrsmorningstar.com/research/387320/european-auto-abs-recovery-performance-update> and <https://www.dbrsmorningstar.com/research/360734/european-abs-transactions-risk-exposure-to-coronavirus-covid-19-effect>.

ESG CONSIDERATIONS

A description of how DBRS Morningstar considers ESG factors within the DBRS Morningstar analytical framework can be found in the DBRS Morningstar Criteria: Approach to Environmental, Social, and Governance Risk Factors in Credit Ratings at: <https://www.dbrsmorningstar.com/research/373262>.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable to the ratings is the "Master European Structured Finance Surveillance Methodology" (8 February 2022).

DBRS Morningstar has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transaction legal documents was not conducted as the legal documents have remained unchanged since the most

recent rating action.

Other methodologies referenced in this transaction are listed at the end of this press release. These may be found at: <https://www.dbrsmorningstar.com/about/methodologies>.

For a more detailed discussion of the sovereign risk impact on Structured Finance ratings, please refer to “Appendix C: The Impact of Sovereign Ratings on Other DBRS Morningstar Credit Ratings” of the “Global Methodology for Rating Sovereign Governments” at: <https://www.dbrsmorningstar.com/research/381451/global-methodology-for-rating-sovereign-governments>.

The DBRS Morningstar Sovereign group releases baseline macroeconomic scenarios for rated sovereigns. DBRS Morningstar analysis considered impacts consistent with the baseline scenarios as set forth in the following report: <https://www.dbrsmorningstar.com/research/384482/baseline-macroeconomic-scenarios-application-to-credit-ratings>.

The sources of data and information used for these ratings include investor reports provided by VWSB and loan-level data provided by the European DataWarehouse GmbH.

DBRS Morningstar did not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial ratings, DBRS Morningstar was supplied with third-party assessments. However, this did not impact the rating analysis.

DBRS Morningstar considers the data and information available to it for the purposes of providing these ratings to be of satisfactory quality.

DBRS Morningstar does not audit or independently verify the data or information it receives in connection with the rating process.

The last rating action on this transaction took place on 15 February 2021 when DBRS Morningstar confirmed the Class A Notes at AAA (sf) and upgraded the Class B Notes to AA (sf) from A (high) (sf).

The lead analyst responsibilities for this transaction have been transferred to Preben Cornelius Overas.

Information regarding DBRS Morningstar ratings, including definitions, policies, and methodologies, is available at www.dbrsmorningstar.com.

To assess the impact of changing the transaction parameters on the ratings, DBRS Morningstar considered the following stress scenarios as compared with the parameters used to determine the ratings (the Base Case):

- DBRS Morningstar expected a lifetime base case PD and LGD for the pool based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.
- The base case PD and LGD of the current pool of loans for the Issuer are 1.7% and 60.8%, respectively.
- The risk sensitivity overview below illustrates the ratings expected if the PD and LGD increase by a certain percentage over the base case assumption. For example, if the LGD increases by 50%, the rating of the Class A Notes would be expected to fall to AA (high) (sf), assuming no change in the PD. If the PD increases by 50%, the rating of the Class A Notes would be expected to fall to AA (sf), assuming no change in the LGD. Furthermore, if both the PD and LGD increase by 50%, the rating of the Class A Notes would be expected to fall to A (high) (sf).

Class A Notes Risk Sensitivity:

- 25% increase in LGD, expected rating of AA (high) (sf)
- 50% increase in LGD, expected rating of AA (high) (sf)
- 25% increase in PD, expected rating of AA (high) (sf)
- 50% increase in PD, expected rating of AA (sf)
- 25% increase in PD and 25% increase in LGD, expected rating of AA (sf)
- 25% increase in PD and 50% increase in LGD, expected rating of AA (sf)
- 50% increase in PD and 25% increase in LGD, expected rating of AA (low) (sf)
- 50% increase in PD and 50% increase in LGD, expected rating of A (high) (sf)

Class B Notes Risk Sensitivity:

- 25% increase in LGD, expected rating of AA (sf)
- 50% increase in LGD, expected rating of AA (low) (sf)
- 25% increase in PD, expected rating of AA (sf)
- 50% increase in PD, expected rating of AA (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected rating of AA (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected rating of A (sf)
- 50% increase in PD and 25% increase in LGD, expected rating of A (sf)
- 50% increase in PD and 50% increase in LGD, expected rating of A (low) (sf)

For further information on DBRS Morningstar historical default rates published by the European Securities and Markets Authority (ESMA) in a central repository, see: <https://cerep.esma.europa.eu/cerep-web/statistics/defaults.xhtml>.
