Transaction Summary

The transactions comprise fully amortising residential mortgages originated and serviced by multiple rural savings banks in Spain with a back-up servicer arrangement with Banco Cooperativo Espanol S.A. (BBB/Stable/F2).

KEY RATING DRIVERS

Resilient to Additional Stresses: The upgrades and revisions of Outlooks reflect Fitch's view that the notes are sufficiently protected by credit enhancement (CE) and excess spread to absorb the additional projected losses (see "EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic" and "Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia").

The rating actions also reflect the broadly stable asset performance outlook, driven by the low share of loans in payment moratoria schemes and the improved macro-economic outlook for Spain as outlined in Fitch's latest Global Economic Outlook dated June 2021. Fitch does not expect the level of late stage arrears to materially increase, and therefore has not made any arrears adjustment within its analysis. Across the transactions, arrears over 90 days range between 0.6% and 2.3% as of the latest reporting periods.

Moreover, the analysis is not influenced by the Covid-19 downside scenario calibration, in line with "Fitch Ratings Retires Coronavirus Baseline and Downside Scenarios" dated 15 June 2021.

The Negative Outlook on Rural Hipotecario VIII, FTA's class D notes reflects the rating's vulnerability to shock scenarios, especially increased defaults, which could be triggered by the large exposure to self-employed borrowers (21.8% of the portfolio balance as of March-2021). We consider these loans riskier than third party employed borrowers due to income volatility.

Rating Caps Due to Counterparty Risks: Rural Hipotecario IX, FTA's maximum achievable rating is 'A+sf' as per Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria, as the transaction remains exposed to payment interruption risk in the event of servicer disruption. We deem the available structural mitigants (i.e. cash reserve funds that can be depleted by losses) insufficient to cover stressed senior fees, net swap payments and senior notes interest due amounts while an alternative servicer arrangement is implemented.

Rural Hipotecario X, FTA's maximum achievable rating remains capped at 'A+sf' due to the account bank minimum eligibility rating thresholds of 'BBB+' and 'F2', which are not compatible with 'AAsf' or

'AAAsf' rating categories as per Fitch's Counterparty Criteria.

Rural Hipotecario VII, FTA's class C notes and Rural Hipotecario X's class B notes' ratings are capped at the SPV account bank provider deposit rating (Societe Generale S.A. A-/Stable/F1, deposit rating 'A') as the cash reserves held at this entity are the only source of structural CE for these notes. The rating cap reflects the excessive counterparty dependence on the SPV account bank holding the cash reserves, in accordance with Fitch's Structure Finance and Covered Bonds Counterparty Rating Criteria.

CE to Increase in Short Term: We expect CE ratios for Rural Hipotecario Global I, FTA to remain broadly stable over the immediate term due to the prevailing pro-rata amortisation mechanism. They will likely increase when the switch to sequential amortisation of the notes is activated after the portfolio factor is lower than 10% (versus 11.8% currently). Similarly, for Rural Hipotecario VII we expect increased CE for the senior notes as the portfolio factor is now less than 10%, which mandates strictly sequential amortisation of the notes.

Fitch expects Rural Hipotecario VIII, IX and X CE ratios to continue increasing in the immediate short term due to the prevailing sequential amortisation. However, the CE ratios could reduce if the pro-rata amortisation of the notes is activated using a reverse sequential pay mechanism until tranche thickness targets are met. For example, Rural Hipotecario VIII's class A notes current CE of 13.0% could fall to around 11.0% if pro-rata amortisation applies. The pro-rata amortisation will be activated if the late stage arrears of the transactions decrease below certain triggers defined by the documentation.

ESG Factors

Rural Hipotecario IX has an ESG Relevance Score of '5' for Transaction & Collateral Structure due to payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a change to the rating of at least one notch downgrade.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

-Rural Hipotecario Global I and Rural Hipotecario VII class A notes are rated at the highest level on Fitch's scale and cannot be upgraded.

-For mezzanine and junior notes, CE ratios increase as the transactions deleverage, able to fully compensate the credit losses and cash flow stresses commensurate with higher rating scenarios, all else being equal.

-For Rural Hipotecario IX class A2 and A3 notes, improved liquidity protection against a servicer disruption event. This is because the ratings are capped at 'A+sf' driven by unmitigated payment interruption risk.

-For Rural Hipotecario VII class C and Rural Hipotecario X class B notes, an upgrade of the SPV account bank's long-term deposit rating could trigger a corresponding upgrade of the notes. This is because the notes' ratings are capped at the bank rating given the excessive counterparty risk exposure.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

-For Rural Hipotecario Global I and Rural Hipotecario VII class A notes, a downgrade of Spain's Long-Term Issuer Default Rating (IDR) that could decrease the maximum achievable rating for Spanish structured finance transactions. This is because these notes are rated at the maximum achievable rating, six notches above the sovereign IDR.

-Long-term asset performance deterioration such as increased delinquencies or larger defaults, which could be driven by changes to macroeconomic conditions, interest rate increases or borrower behaviour.

-For Rural Hipotecario VII class C and Rural Hipotecario X's class B notes, a downgrade of the SPV account bank's long-term deposit rating could trigger a corresponding downgrade of the notes. This is because the notes' ratings are capped at the bank rating given the excessive counterparty risk exposure.

Best/Worst Case Rating Scenario

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Overall, and together with any assumptions referred to above, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

Rural Hipotecario VII's class C notes and Rural Hipotecario X's class B notes' ratings are capped at Societe Generale S.A.'s long-term deposit rating due to unmitigated counterparty dependency.

ESG Considerations

Rural Hipotecario IX has an ESG Relevance Score of '5' for Transaction & Collateral Structure due to payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a change to the rating of at least one notch downgrade.

For Rural Hipotecario VII and Rural Hipotecario X, Fitch is changing the ESG.RS to '3' from '5' for Transaction Parties & Operational Risk as we only consider a '5' when the counterparty constraint is at a senior class level.

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in

accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a

consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

Endorsement policy

Fitch's international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch's approach to endorsement in the EU and the UK can be found on Fitch's [Regulatory Affairs](#) page on Fitch's website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
