RATING ACTION COMMENTARY

Fitch Takes Multiple Actions on 5 Rural Hipotecario RMBS

Tue 18 Aug, 2020 - 13:13 ET

Fitch Ratings - Madrid - 18 Aug 2020: Fitch Ratings has taken multiple rating actions on five Rural Hipotecario RMBS in Spain, including the downgrade of two tranches and the removal from Rating Watch Negative (RWN) of 11 tranches. A full list of rating actions is below.

RATING ACTIONS

ENTITY/DEBT	RATING			PRIOR
Rural Hipotecario VIII, FTA				
● Class A2a ES0366367011	LT	AAsf Rating Outlook Negative	Affirmed	AAsf Rating Outlook Stable
● Class A2b ES0366367029	LT	AAsf Rating Outlook Negative	Affirmed	AAsf Rating Outlook Stable

● Class C ES0366367045	LT	A-sf Rating Outlook Negative	Affirmed	A-sf Rating Watch

[VIEW ADDITIONAL RATING DETAILS](#)

TRANSACTION SUMMARY

The transactions comprise fully amortising residential mortgages originated and serviced by multiple rural savings banks in Spain with a back-up servicer arrangement with Banco Cooperativo Espanol S.A. (BBB/Negative/F2).

KEY RATING DRIVERS

COVID-19 Additional Stresses

In its analysis of the transactions, Fitch has applied additional stresses, in conjunction with its European RMBS Rating Criteria, in response to the coronavirus outbreak and the recent legislative developments in Catalonia. Fitch anticipates a generalised weakening of the Spanish borrowers' ability to keep up with mortgage payments following a spike in unemployment and increased vulnerability of self-employed borrowers.

Performance indicators such as the levels of arrears (currently ranging between 0.5% and 1.4% for the five transactions) could increase in the following months, leading Fitch to also incorporate a 10% increase to the weighted average foreclosure frequency (WAFF) of the relevant portfolios (See EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic and, Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia at www.fitchratings.com).

As outlined in "Fitch Ratings Coronavirus Scenarios: Baseline and Downside Cases", we also consider a downside coronavirus scenario for sensitivity purposes whereby a more severe and prolonged period of stress is assumed. Under this scenario, Fitch's analysis accommodates a further 15% increase to the portfolio's WAFF and a 15% decrease to the WA recovery rate (WARR).

Off RWN; Negative Outlooks

The affirmation and RWN resolution of nine tranches reflects our view that credit enhancement (CE) is sufficient to mitigate the risks associated with our base case coronavirus scenario. The Negative Outlook on these tranches reflects the ratings' vulnerability over the longer term, driven by a larger-than-average exposure to self-employed borrowers (ranging between 21.9% and 28.9% of portfolio balances). This group of borrowers are particularly vulnerable to the crisis, due to income volatility, and may default on their mortgages.

The downgrade and RWN resolution of two tranches (Rural 8 and Rural 9 class D notes) reflect the insufficient CE protection to compensate for the larger projected losses under our base case coronavirus scenario. The Negative Outlook on these tranches reflects the ratings' vulnerability over the longer term to coronavirus stress. The sensitivity of the ratings to scenarios more severe than currently expected is provided in Rating Sensitivities below.

Low Take-up Rates on Payment Holidays

Fitch does not expect the COVID-19 emergency support measures introduced by the Spanish government for vulnerable borrowers to negatively impact the SPV's liquidity, given the low Spanish national average take-up rate of payment holidays of around 9%. Additionally, the high portfolio seasoning of around 14 to 17 years and the large share of floating-rate loans enjoying currently low interest rates are strong mitigating factors against macroeconomic uncertainty.

Rural 9 Capped on Payment Interruption Risk

Rural 9 remains exposed to payment interruption risk in the event of servicer disruption as the available structural mitigating features (ie cash reserve funds that can be depleted by losses) are deemed insufficient to cover stressed senior fees, net swap payments and senior notes interest due while an alternative servicer is being sought. As a result, Fitch continues to cap the maximum achievable rating of this transaction at 'A+sf' as per its Structured Finance and Covered Bonds Counterparty Rating Criteria.

Rural 7 & 10 Capped on Counterparty Risks

Rural 10's maximum achievable rating remains capped at 'A+sf' due to the account bank minimum eligibility rating thresholds of 'BBB+' and 'F2', which are not compatible with 'AAsf' or 'AAAsf' rating categories as per Fitch's Counterparty Criteria.

Rural 7's class C and Rural 10's class B ratings are capped at the SPV account bank provider deposit rating (Societe Generale S.A.) as the transactions' cash reserves held at this entity represent the only source of structural CE for these notes. The rating cap reflects the excessive counterparty dependence on the SPV account bank holding the cash reserves, in accordance with Fitch's Structure Finance and Covered Bonds Counterparty Rating Criteria.

ESG Considerations - Governance

Rural 7 and Rural 10 each has an Environmental, Social and Governance (ESG) Relevance Score of '5' for Transaction Parties & Operational Risk due to excessive counterparty risk, which has a negative impact on the credit profile, and is highly relevant to the ratings, resulting in a downward adjustment to the ratings by at least one notch.

Rural 9 has an Environmental, Social and Governance (ESG) Relevance Score of '5' for Transaction & Collateral Structure due to payment interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a downward adjustment to the rating by at least one notch.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Increases in CE as the transactions deleverage to fully compensate the credit losses and cash flow stresses that are commensurate with higher rating scenarios, all else being equal.

For the senior class notes of Rural 9, improved liquidity protection against a servicer disruption event. This because the ratings are capped at 'A+sf' due to unmitigated payment interruption risk.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

A longer-than-expected coronavirus crisis that weakens macroeconomic fundamentals and the mortgage market in Spain beyond Fitch's current base case.

CE cannot fully compensate the credit losses and cash flow stresses associated with the current ratings, all else being equal. To approximate this scenario, a rating sensitivity has been conducted by increasing default rates by 15% and cutting recovery expectations by 15%, which would imply downgrades of one category for some of the notes.

A worse-than-expected performance from self-employed borrowers if the coronavirus pandemic shock materialises in further job losses and more income volatility.

For Rural 7 class C and Rural 10 class B notes, a downgrade on Societe Generale, S.A.'s deposit rating, due to the notes' ratings being capped to the bank rating for unmitigated counterparty risk.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G - 10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

Rural 7 class C notes' and Rural 10 class B notes' 'Asf' ratings are capped at Societe Generale S.A.'s Long Term Deposit Rating of 'A'.

ESG CONSIDERATIONS

Rural Hipotecario IX, FTA: Transaction & Collateral Structure: 5

Rural Hipotecario VII, FTA: Transaction Parties & Operational Risk: 5

Rural Hipotecario X, FTA: Transaction Parties & Operational Risk: 5

Except for the matters discussed above, the highest level of ESG credit relevance, if present, is a score of 3 - ESG issues are credit neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from

independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor,

for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
