<http://emea.directeventreg.com/registration/6239399>

Adjunto se remite nota de prensa y la documentación de soporte a la presentación, que está igualmente disponible en la web corporativa de Solarpack.

Getxo, a 13 de septiembre de 2021.

Getxo, 13 de septiembre de 2021

Solarpack muestra unos sólidos resultados durante el primer semestre de 2021 con €24 millones de EBITDA

- Alcanza en el primer semestre de 2021 unos ingresos operativos de €72,7 millones (vs. 81,0 millones en H1 2020), un EBITDA de €24,2 millones (vs. €29.6 millones H1 2020) y un beneficio neto de €0,1 millones, frente al resultado de €4,8 millones del primer semestre del año pasado.
- Continúa con la ejecución de su cartera de proyectos en construcción, que suma 180 MW repartidos en Malasia, Chile y España.
- La actividad comercial y de desarrollo continúa en todos los mercados, destacando recientes ofertas presentadas en Sudáfrica, Israel y Malasia.
- Pone en marcha 22 MW en Chile y comienza las obras de 10 MW en España.
- Aprueba un plan de acción social destinando €2,6 millones en el periodo 2021-2023 a iniciativas de impacto social y económico, principalmente en las zonas en donde la compañía opera.

La multinacional basada en Getxo, especializada en energía solar fotovoltaica (FV), muestra unos sólidos resultados en el primer semestre de 2021, siendo la unidad de Power Generation (POWGEN) la principal contribución al EBITDA con 450 MW operativos atribuibles.

Además, la compañía continúa con la ejecución de su cartera de proyectos en construcción, que suma 180 MW repartidos en Malasia, Chile y España. Solarpack estima participar en los próximos meses con cerca de 3,6 GW de proyectos en desarrollo en licitaciones y procesos de venta de energía a largo plazo en USA, España, Colombia, Chile, Sudáfrica, Malasia e India, entre otros mercados. Pone en marcha 22 MW en Chile y comienza las obras de 10 MW en España.

Su segmento de Desarrollo y Construcción (“DEVCON”) alcanza en el primer semestre de 2021 unos ingresos de explotación de €41,7 millones y un EBITDA de €1,4 millones. Registra un margen bruto en línea con las guías dadas al mercado, con menores márgenes en los proyectos de Chile por incrementos de costes en la construcción ocasionados por la situación del mercado logístico internacional, sobrecostes en obra civil y restricciones derivadas del Covid 19, lo cual ha sido compensado en gran parte por el elevado margen de desarrollo y construcción del proyecto 3SP de Malasia, de 116 MW, que está previsto entre en operación durante el cuarto trimestre de 2021.

En su segmento de generación de energía (“POWGEN”), donde la compañía cuenta con 450 MW operativos atribuibles (545 MW en total), Solarpack suma en el primer semestre de 2021 unos ingresos de explotación de €27,0 millones y un EBITDA de €22,7 millones, ligeramente por encima de lo previsto para la unidad de negocio al inicio del año.

El segmento de Servicios (“SVCS”) ha sumado en los seis primeros meses de 2021 unos ingresos de €3,9 millones y un EBITDA de €1 millones.

El beneficio neto de la Compañía ha alcanzado los €0,1 millones en el primer semestre de 2021, frente a los €4,8 millones del primer semestre de 2020, debido principalmente a la menor actividad constructiva para terceros registrada durante 2021.

Por último, en el marco de su plan de sostenibilidad para 2021-2023, Solarpack ha aprobado su plan de acción social destinando €2,6 millones durante ese periodo para iniciativas de impacto social y económico, principalmente en las zonas en donde la compañía opera y destinadas a favorecer el acceso a energía limpia y asequible para todos y a la educación como elemento clave del desarrollo económico y social.

Sobre Solarpack

Solarpack es una multinacional especializada en el desarrollo, construcción y operación de proyectos solares fotovoltaicos a gran escala con presencia en mercados de rápido crecimiento en Europa, América del Norte, América Latina, Asia y África. Desde su fundación en 2005, la Compañía ha desarrollado plantas de energía solar fotovoltaica que representan una capacidad total de 987 MW y construido 730 MW en modalidad "llave en mano" o "EPC" ("Ingeniería, Compras y Construcción"). La Compañía actualmente genera energía a través de 15 proyectos que suman 545 MW en España, Chile, Perú e India. Además, Solarpack opera y mantiene 22 proyectos, con un total de 741 MW, y proporciona servicios de gestión de activos para un total de 716 MW de proyectos propios y de terceros. Con sede central en Getxo, España, Solarpack tiene una presencia geográfica diversificada y emplea a más de 260 personas en 10 países.

H1 2021 trading update

September 13, 2021

This presentation has been prepared by Solarpack Corporación Tecnológica, S.A. (the Company) for informational use only.

The information contained in this presentation does not purport to be comprehensive or to contain all the information that a prospective purchaser of securities of the Company may desire or require in deciding whether or not to purchase such securities, and has not been verified by the Company or any other person. The information contained in this document is subject to change without notice. Neither the Company nor any of affiliates, advisors or agents makes any representation or warranty, express or implied, as to the accuracy or completeness of any information contained or referred to in this document. Each of the Company and its employees, officers, directors, advisors, agents or affiliates expressly disclaims any and all liabilities whatsoever (in negligence or otherwise, whether direct or indirect, in contract, tort or otherwise) for any loss howsoever arising from any use of this presentation, the information contained or referred to therein, any errors therein or omissions therefrom or otherwise arising in connection with this presentation. Neither the Company, nor any of its affiliates, advisors or agents undertakes any obligation to provide the recipients with access to additional information or to update this document or to correct any inaccuracies in the information contained or referred to therein.

Certain statements in this document regarding the market and competitive position data may be based on the internal analyses of the Company, which involve certain assumptions and estimates. These internal analyses may have not been verified by any independent sources and there can be no assurance that the assumptions or estimates are accurate. Additionally, certain information in this presentation may be based on management accounts and estimates of the Company and may have not been audited or reviewed by the Company's auditors. Accordingly, recipients should not place undue reliance on this information. This information is provided to the recipients for informational purposes only and recipients must undertake their own investigation of the Company.

The information providing herein is not to be relied upon in substitution for the recipient's own exercise of independent judgment with regard to the operations, financial condition and prospects of the Company.

Neither this presentation nor any copy of it shall be taken, transmitted into, disclosed, diffused, sent, published or distributed in the United States, Canada, Australia or Japan. The distribution of this presentation in other jurisdictions may also be restricted by law and persons into whose possession this presentation comes should inform themselves about and observe any such restrictions. In particular, any offer that might result from the transaction herein escribed will not be made, directly or indirectly, in the United States of America, or by use of mails, or by any means or instrumentality (including, without limitation, facsimile transmission, telephone and internet) of interstate or foreign commerce of, or any facilities of any national securities exchange of, the United States, Canada, Australia or Japan. The securities of the Company have not been and, should there be an offering, Will not be registered under the U.S. Securities Act of 1933, as amended (the Securities Act) and, subject to certain exceptions, may not be offered or sold in the United States. The securities of the Company have not been and, should there be an offering, will not be registered under the applicable securities laws of any state or jurisdiction of Canada or Japan and, subject to certain exceptions, may not be offered or sold within Canada, Australia or Japan or to or for the benefit of any national, resident or citizen of Canada, Australia or Japan.

THIS PRESENTATION DOES NOT CONSTITUTE OR FORM PART OF ANY OFFER FOR SALE OR SOLICITATION OF ANY OFFER TO BUY ANY SECURITIES IN THE UNITED STATES OR IN ANY OTHER JURISDICTION, NOR SHALL IT OR ANY PART OF IT FORM THE BASIS OF OR BE RELIED ON IN CONNECTION WITH ANY CONTRACT OR COMMITMENT TO SELL OR PURCHASE SHARES. ANY DECISION TO SELL OR PURCHASE SHARES IN ANY OFFERING SHOULD BE MADE SOLELY ON THE BASIS OF PUBLICLY AVAILABLE INFORMATION.

This presentation may include forward-looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause such actual results, performance or achievements, or industry results, to be materially different from those expressed or implied by these forward-looking statements. These forward-looking statements are based on numerous assumptions regarding the present and future business strategies of the Company and the environment in which they expect to operate in the future. Forward-looking statements speak only as of the date of this presentation and the Company expressly disclaim any obligation or undertaking to release any update of, or revisions to, any forward-looking statements in this presentation, any change in their expectations or any change in events, conditions or circumstances on which these forward-looking statements are based.

Throughout the presentation, some numbers may not tie up exactly due to rounding effects.

In reviewing this presentation, the recipient is agreeing to, and accepting, the foregoing restrictions and limitations.

Agenda

1. Key Milestones

2. Operations Update
 3. Financial Review
 4. 2021-2023 ESG Master Plan running at full speed
 5. Outlook
 6. Q&A
- Appendix

1

H1 2021 continues to show robust results with segment EBITDA⁽¹⁾ of €24m coming mainly from POWGEN

- POWGEN + SVCS business units' results slightly above company's expectations at the beginning of the year
- POWGEN's slightly lower results in H1 2021 vs. H1 2020 mainly due to the profitable farm-down in Q2 2020 of 49% stake in Peruvian Assets
- DEVCON H1 2021 Gross Margin remains within guidance range at 11.5%, although impacted by higher costs seen in Araucana (Chile) during Q2 2021. Decrease vs. H1 2020 mainly due to the above-average H1 2020 margins

2

Construction activities are making progress in Malaysia, Chile and Spain with 180 MW under construction

- 116 MW 3SP project in Malaysia (Build & Own) is on track to start operations within 2021
- 22 MW put in operation in Chile (Build & Sell) since the Q1 trading update and 54 MW still under construction in this market
- 10 MW have transitioned to Under Construction status in Spain

3

Development and commercial activity continues in all markets, with 3.6 GW of projects being candidates for order intake (Backlog) in the upcoming months

- Key markets remain Spain, USA, Chile, Colombia, South Africa, India, SEA and rest of the world
- Bids recently submitted in South Africa, Israel and Malaysia for 0.7 GW
- PPA signature schedule for Gorbea project in India (419 MW) extended to Q4 2021
- El Aromo project in Ecuador (259MW) is expected to sign the PPA in Q4 2021
- Since Q1 '21 trading update, Pipeline and Identified Opportunities remain at similar level, with an increase in Spain and reductions in USA, SAR and Colombia

1. Segmented financial information, non-GAAP. Helps to better understand the performance of the different businesses and their cash generation. Certain eliminations/adjustments must be applied under IFRS, mainly linked to elimination of DEVCON revenues and gross margins of Build and Own projects

Key Figures, segment and IFRS information

	Business Unit	Financials (EUR m)	Highlights
Segment information	DEVCON (Development & Construction)		<ul style="list-style-type: none"> H1 2021 shows construction activities coming mainly from Malaysia (B&O) and Chile (B&S) H1 2021 gross margin, in line with guidance, lower than H1 2020 due to the above-average Q1 2020 gross margin Margin reduction in 2021 mainly due to higher costs in Chile, partially compensated by 3SP, that remains with strong margins expectations during the year
	POWGEN (Power Generation)		<ul style="list-style-type: none"> Slightly above SPK's expectations at the beginning of the year. Difference in EBITDA in H1 2021 vs. H1 2020 explained mainly by the sale of Tacna and Panamericana in Q2 2020, off-set by higher contribution from Granja and higher spot prices during 2021 vs 2020
	SVCS (Services)		<ul style="list-style-type: none"> In line with SPK's expectations at the beginning of the year Better margins driven by increased efficiencies
	TOTAL⁽¹⁾		<ul style="list-style-type: none"> Difference explained mainly by DEVCON. Alignment with key strategic financial metrics: <ul style="list-style-type: none"> 82% of POWGEN + SVCS revenues in hard currencies 75% contracted POWGEN revenues
IFRS information	TOTAL		<ul style="list-style-type: none"> Lower IFRS Revenues vs. segment revenues mainly explained from elimination² of B&O DEVCON activity

Financial Review

Segment Financials (DEVCON + POWGEN + SVCS + Corporate)⁽¹⁾

Segment financials show strong construction and power generation activity

In EUR m

- DEVCON: construction activity in H1 2021 generated a gross margin within guidance range, but lower than H1 2021 one due to the above-average margin booked in Q1 2020. Margin reduction in 2021 mainly due to higher costs in Chile, partially compensated by 3SP
- POWGEN continues to be the main contributor to EBITDA with 450 MW of attributable capacity
- Quarterly EBITDA remains strong thanks to POWGEN stability, with revenues increasing vs. Q1 2021

In EUR '000

	EBITDA	Margin %	EBITDA	Margin %
DEVCON	4.8	9.8%	1.4	3.4%
POWGEN	25.0	88.3%	22.7	84.0%
SVCS	0.5	12.1%	1.0	23.7%
Corporate	(0.6)	n.a.	(0.8)	n.a.

Segments Quarterly Financials (EUR '000)

1. Segmented financial information, non-GAAP. Helps to better understand the performance of the different businesses and their cash generation. Certain eliminations/adjustments must be applied under IFRS, mainly linked to elimination of DEVCON revenues and gross margins of Build and Own projects

DEVCON highlights

- H1 2021 gross margin within guidance range
- “Build & Sell” projects in Chile in H1 2021 impacted by cost increases mainly due to logistics market disruptions and civil works extra costs
- 3SP in Malaysia (116 MW) expected to enter operation in Q4 2021 and keeping strong margins
- Comparison with H1 2020 needs to consider high gross margin in Q1 last year (26%) partly explained by project execution stages with higher-than-average margins

3SP plant Under Construction in Malaysia

DEVCON financial performance (EUR '000)

POWGEN highlights

- Results slightly above SPK's expectations at the beginning of 2021
- Main differences between H1 2020 and H1 2021 explained by different average ownership in Tacna and Panamericana, where 49% was sold in Q2 2020
- Revenues in hard-currencies from POWGEN + SVCS account for 82% of total revenues and exposure to merchant revenues is at 25%

POWGEN financial performance (EUR m)

Operating Revenues

EBITDA

% of Revenues:

H1 2020: 88.3%
H1 2021: 84.0%

MW in operation at the end of period

GWh generated in the period

Portfolio qualitative metrics

POWGEN + SVCS H1 2021 Revenue currency split

POWGEN H1 2021 Revenues Split

SVCS highlights

- In line with SPK’s expectations at the beginning of the year
- Higher gross margin and EBITDA margin driven by operational efficiencies derived from a bigger fleet serviced
- Availability returning to standard above 99% rate

SVCS financial performance (EUR m)

Operating Revenues

Gross Margin

EBITDA

MW managed at the end of period

Average Availability⁽¹⁾

1. Includes only projects in operation during the full period

IFRS financials show in H1 2021 reductions from H1 2020 numbers explained mainly by lower DEVCON contribution

Operating Revenues⁽¹⁾
(EUR m)

- H1 2021 IFRS Operating Revenues reflect lower B&S DEVCON activity vs. H1 2020, partially off-set by higher contribution from POWGEN consolidation

EBITDA & EBITDA margin
(EUR m, %)

- EBITDA differences between H1 2021 and H1 2020 driven mainly by lower B&S DEVCON activity in H1 2021

Net Profit to SPK
(EUR m)

- In H1 2021, Net Profit reflects mainly the differences shown at EBITDA level flowing down to the bottom line

1. Operating Revenues consist of net business turnover, other operating revenues and variation of finished and work-in-progress stock

Breakdown of net financial debt (NFD) as of June 30, 2021

- IFRS NFD increased in H1 from €350m to €390m (+€40m)
 - Net increase mainly due to cash invested in projects under construction, debt raised for 3SP project in Malaysia and working capital movements (taxes, project cash-in, suppliers)

1. Corresponds to the total NFD of each entity multiplied by Solarpack's ownership percentage

2. Corporate Net Cash comprises mainly cash & cash equivalents, short-term loans to related companies and other long-term liabilities, excluding non-recourse net financial debt at project level. Long-term liabilities related to land lease agreements of projects Under Construction included in POWGEN NFD (c. €6.2m vs. c. €6.5m as of December 31, 2020). NFD of projects under construction included in POWGEN NFD (€26.3m as of June 30, 2021)

3. NFD associated with projects under construction (3SP)

4. Non-recourse project finance debt linked to the projects in operation as of June, 30 2021.

Eliminations

- **Intra-Group transactions** are eliminated under IFRS: The majority of the eliminations come from DEVCON margin for Build & Own Projects. To a lesser extent, revenues coming from SVCS provided to consolidated operating plants also result in eliminations
- **In order to reflect the equity interests in the different projects, (i) transactions of non-controlled companies** that are accounted for in the business divisions, but which are not included in the consolidated results of the Group under IFRS; and **(ii) for those companies fully consolidated under IFRS**, transactions attributable to non-controlling interests are eliminated to reflect proportional interest in the companies' results
- **Reclassification of operating revenues** that are considered as financial income under IFRS
