

NATURGY ENERGY GROUP, S.A.

NATURGY ENERGY GROUP, S.A. in compliance with the provisions of article 227 of the Securities Market Act, approved by Royal Legislative Decree 4/2015, of 23 October, hereby notifies the National Securities Market Commission of the following

DISCLOSURE OF OTHER RELEVANT INFORMATION

Global Power Generation (GPG), the joint venture of Naturgy Energy Group, SA (75%) and the Kuwait Investment Authority (25%), announced today an agreement to build a 97MW wind farm located at Hawkesdale in Victoria, approximately 270 km from Melbourne, Australia.

The Hawkesdale wind farm is estimated to require a total investment of AUD168m (equivalent to approximately €100m) and is expected to start operations in the second half of 2022.

The contract consists of a 15 years power purchase agreement (PPA) for the energy equivalent to 97MW capacity. Given the characteristics of the awarded contract and the conditions of the Australian market, one of the most attractive countries to invest in renewables, the project fully complies with the investment and profitability criteria required by Naturgy for value creation.

With this agreement, Naturgy increases its renewable capacity in Australia to over 700 MW and confirms its commitment to renewables growth in the country.
