# Sustainability: Key highlights 1Q2024

## Environment

- Another step has been taken in the mobilisation of sustainable finance with the issuance of the **bank's first green bond** for an amount of **€500M**, aimed at **financing mortgages and sustainable projects**. The issue received a demand of more than €3,800M.
- The transition of the agricultural sector has continued to be promoted, as part of the agreement signed with **Eagronom**, which will offer the Bank's clients in the agri-food sector **a service to certify the carbon sequestration of their farms, issue the corresponding credit** and negotiate it in the market for subsequent payment to the farmer.
- The bank has continued to **support and finance its clients' sustainable projects**. Of particular note is the Next Gen Advance loan to GFM Energía Solar, a family business in Castilla-La Mancha that is a pioneer in renewable energies.

## Social

- It has obtained the **AENOR Healthy Organisation** certificate, which recognises the organisation's commitment to the well-being of the employee base. It is the first **Spanish financial institution to obtain this recognition**.
- A **new Equality Plan** has been signed with which the Entity continues to make progress in terms of equal opportunities, offering greater facilities for the reconciliation of personal, family and professional life.
- **Volunteer activities** have continued to be promoted, with **more than 700 people** joining each quarter. Of particular note is the internal initiative "Move without a Footprint", which includes the **planting of 4,000 trees for reforestation**.
- **Social development projects have continued to be supported with donations**, highlighting projects to fight Parkinson's or to improve the autonomy of people with disabilities. The donation is part of the **"Your Money with Heart"** initiative.

## Governance

- The strategic triennium has been completed, framed within the **2023 Challenge Plan, where the integration of sustainability and corporate purpose into the activity has been particularly relevant**.
- Of particular note is the **integration of ESG parameters into the risk appetite statement and the definition of a Carbon Footprint Reduction Strategy and the configuration of a line of savings-investment and financing products** to accompany its clients in advancing on the path to sustainability.

€m

## Customer spread

%

**Net interest income increases by 8.2% YoY or €13m.**

**Retail margin improves €46m YoY.**

- The **loan yield** stands at **3.7%** and the **deposits cost** remains at **0.5%** despite the increase in time deposits. **Customer spread** in 1Q24 remains at **3.2% (+77bps YoY)**

**The increase in the costs of wholesale funding both in long-term (-16m) and short-term (-20m) reduces the NII growth.**

# Net fee income

## Net fee income breakdown

€m

## Non-banking fees

€m

### Net fee income increases by 6.3% YoY or €7m.

- The main driver of this evolution is the growth in **non-banking fees (+10.7% YoY)** as a result of the strong momentum in AuM (net new money inflows and good market evolution). On the other hand, banking fees decrease 1.7% YoY.

# Recurring revenues & gross operating income

## Recurring revenues breakdown

€m

## Gross operating income breakdown

€m

Recurring revenues grow 10.4% YoY driven by the good performance in NII, fees and insurance revenues.

Gross margin, which includes impact of the temporary bank tax amounting to €40m (which represents an increase of €12m vs. 1Q2023), advances 8.2% YoY reaching €287m.

- Excluding the banking tax, gross margin would have grown 11.3% YoY.

# Operating costs & pre-provision profit

## Operating costs

€m
