

## FONDO DE TITULIZACIÓN SANTANDER CONSUMO 7

**Santander de Titulización, S.G.F.T, S.A.**, acting in the name and on behalf of Fondo de Titulización Santander Consumo 7 (the "**Fund**") as its management company, pursuant to the provisions of (i) Article 17 of Regulation (EU) No 596/2014 of the European Parliament and of the Council on market abuse, (ii) Article 227 of the consolidated text of the Securities Market Act, approved by Royal Legislative Decree 4/2015, of 23 October, (iii) stipulation 17.1.5 of the deed of incorporation of the Fund (*Extraordinary Notifications*), and (iv) the concordant provisions, hereby informs you of the following communication of

### **OTHER RELEVANT INFORMATION**

That the Fund was incorporated by means of a public deed of incorporation granted on November 11, 2024 before the Notary Public of Madrid, Mr Jose Maria Mateos Salgado with number 9,582 of his public records (the "**Deed of Incorporation**").

In aforementioned Deed of Incorporation, the interpolation for the Reference Rate of the Initial Interest Accrual Period (as these terms are defined in the aforementioned Deed of Incorporation) was included. In this sense, an error was inadvertently made in the calculation of the rate in clause 9.5.3 of the Deed of Incorporation, which should be 2.883% and not 2.885% as stated therein.

Consequently, on the date hereof, this error has been corrected by means of a diligence extended in the Deed of Incorporation by the Notary authorising the aforementioned Deed of Incorporation, reflecting the following:

- In relation to the determination of the Reference Rate for the Initial Interest Accrual Period, the Reference Rate is **2.883%**.
- The nominal Interest Rate applicable to the Class A Notes for the Initial Interest Accrual Period is **3.733%** (i.e. the rate resulting from adding to the above Reference Interest Rate (2.883%) the Class A margin (0.85%)).
- The nominal Interest Rate applicable to the Class B Notes for the Initial Interest Accrual Period is **4.183%** (i.e. the rate resulting from adding to the above Reference Interest Rate (2.883%) the Class B margin (1.30%)).
- The nominal Interest Rate applicable to the Class C Notes for the Initial Interest Accrual Period is **4.533%** (i.e. the rate resulting from adding to the above Reference Interest Rate (2.883%) the Class C margin (1.65%)).
- The nominal Interest Rate applicable to the Class D Notes for the Initial Interest Accrual Period is **5.783%** (i.e. the rate resulting from adding to the aforementioned Reference Interest Rate (2.883%) the Class D margin (2.90%)).
- The nominal Interest Rate applicable to the Class E Notes for the Initial Interest Accrual Period is **7.283%** (i.e. the rate resulting from adding to the above Reference Interest Rate (2.883%) the Class E margin (4.40%)).
- The nominal Interest Rate applicable to Class F Notes for the Initial Interest Accrual Period is **7.833%** (i.e. the rate resulting from adding to the above Reference Interest Rate (2.883%) the Class F margin. (4.95%)).

In Madrid, on 28 November 2024.

*The Managing Director*
