#### RATING ACTION COMMENTARY

# Fitch Takes Multiple Actions on Four Spanish RMBS

Fri 18 Sep, 2020 - 11:23 ET

Fitch Ratings - Madrid/London - 18 Sep 2020: Fitch Ratings has affirmed all tranches of four Spanish RMBS and removed three tranches from Rating Watch Negative (RWN). All Outlooks are Stable. A full list of rating actions is below.

		RATING ACTIONS		
ENTITY/DEBT	RAT	ING	PRIOR	
BBVA RMBS 1, FTA				
• Class A2 ES0314147010	LT	A+sf Rating Outlook Stable	Affirme d	A+sf Rating Outlook Stable
• Class A3 ES0314147028	LT	A+sf Rating Outlook Stable	Affirme d	A+sf Rating Outlook Stable
• Class B ES0314147036	LT	BBB+sf Rating Outlook Stable	Affirme d	BBB+sf Rating Outlook Stable

#### **VIEW ADDITIONAL RATING DETAILS**

#### TRANSACTION SUMMARY

The transactions comprise Spanish mortgages serviced by Banco Bilbao Vizcaya Argentaria S.A. (BBB+/Stable/F2) for BBVA RMBS 1-3 and Banco Santander S.A. (A-/Negative/F2) for Santander Hipotecario 3 (Santander 3).

#### **KEY RATING DRIVERS**

**COVID-19 Additional Stresses Assumptions** 

In its analysis of the transactions, Fitch has applied additional stresses in conjunction with its European RMBS Rating Criteria in response to the coronavirus outbreak and the recent legislative developments in Catalonia. Fitch anticipates a generalised weakening of the Spanish borrowers' ability to keep up with mortgage payments linked to a spike in unemployment and vulnerability for self-employed borrowers.

Performance indicators such as the levels of arrears could increase in the following months and, therefore, Fitch has also incorporated a 10% increase to the weighted average foreclosure frequency (WAFF) of the portfolios. See: "EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic" and "Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia" at www.fitchratings.com.

As outlined in "Fitch Ratings Coronavirus Scenarios: Baseline and Downside Cases -- Update", we also consider a downside coronavirus scenario for sensitivity purposes whereby a more severe and prolonged period of stress is assumed. Under this scenario, Fitch's analysis accommodates a further increase to the portfolio WAFF and a decrease to the WA recovery rates (RR). The sensitivity of the ratings to scenarios more severe than currently expected is provided in Rating Sensitivities below.

BBVA Transactions: RWN Resolved & Criteria Variation

The affirmation and RWN resolution of BBVA 2 Classes A and B notes reflect our view that credit enhancement (CE) is sufficient to mitigate the risks associated with performance volatility and the longer recovery timings on future loan defaults located in Catalonia.

Fitch has applied a 25% haircut to the asset model estimated RR for the BBVA RMBS transactions, considering the record of cumulative recoveries on defaults of about 34%

as per the latest reporting date, which compares against an average of about 65% observed for the rest of Fitch-rated Spanish RMBS transactions. This is a variation from the European RMBS Criteria and has a maximum Model Implied Rating impact of minus five notches (Class C notes of BBVA 2).

#### Payment Interruption Risk Caps Ratings

All transactions remain exposed to unmitigated payment interruption risk in the event of a servicer disruption, as the available structural mitigants are deemed insufficient to cover stressed senior fees, net swap payments and senior note interest due amounts while an alternative servicer arrangement is implemented. As a result, the maximum achievable rating remains at 'A+sf' as per Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

#### Low Take-up Rates on Payment Holidays

Fitch does not expect the COVID-19 emergency support measures introduced by the Spanish government and banks for borrowers in vulnerability to negatively affect the special-purpose vehicles' liquidity positions, given the low take-up rate of payment holidays in the BBVA RMBS transactions that range between 3.9% and 5.4% as of June 2020. Additionally, the high portfolio seasoning of about 15 years and the large share of floating-rate loans that enjoy the low interest-rate scenario are strong mitigants against macroeconomic uncertainty.

#### **CE Trends**

Fitch expects CE ratios to continue increasing for all transactions in the short term due to prevailing sequential amortisation of the notes. However, for BBVA 1 and BBVA 2, CE ratios could decrease if the pro-rata amortisation mechanism was activated with the application of a reverse sequential amortisation of the notes until tranche thickness targets for classes B and C notes are met (double the initial thickness percentages). For example, BBVA 1 class A notes CE could reduce to about 19.3% from 27.4% at present. The switch to pro-rata is subject to performance triggers, such as the reserve funds being at their respective target amounts.

#### **ESG Considerations**

BBVA 1 and BBVA 2 have an Environmental, Social and Governance (ESG) Relevance Score of '5' for Transaction & Collateral Structure due to unmitigated payment

interruption risk, which has a negative impact on the credit profile, and is highly relevant to the rating, resulting in a downward adjustment to the ratings by at least one notch.

BBVA 3 has an ESG Relevance Score of '4' for Transaction & Collateral Structure due the exposure to payment interruption risk, which could have a negative impact on the credit profile and is relevant to the ratings in conjunction with other factors. In addition, it has an ESG Relevance Score of '4' for Transaction Parties & Operational Risk due to the breach of account bank replacement triggers, which has a negative impact on the credit profile, and is relevant to the ratings in conjunction with other factors.

#### **RATING SENSITIVITIES**

Factors that could, individually or collectively, lead to positive rating action/upgrade:

Increase in credit enhancement, as the transactions deleverage, to fully compensate for the credit losses and cash-flow stresses that are commensurate with higher rating scenarios, all else being equal.

For the senior notes of all transactions, improved liquidity protection against a servicer disruption event. This because the ratings are currently capped at 'A+sf' on unmitigated payment interruption risk.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

A longer-than-expected coronavirus crisis that weakens macroeconomic fundamentals and the mortgage market in Spain beyond Fitch's current base case. Insufficient credit enhancement to fully compensate the credit losses and cash-flow stresses associated with the current ratings scenarios, all else being equal. To approximate this scenario, a rating sensitivity has been conducted by increasing default rates by 15% and reducing recovery expectations by 15% (for Santander 3), which would imply downgrades of more than one notch for some of the notes.

#### **BEST/WORST CASE RATING SCENARIO**

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span

of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit https://www.fitchratings.com/site/re/10111579.

#### **CRITERIA VARIATION**

Fitch has applied a 25% haircut to the asset model estimated RR for the BBVA RMBS transactions, considering the record of cumulative recoveries on defaults of about 34% as per the latest reporting date, that compares against an average of about 65% observed for the rest of Spanish RMBS transactions rated by Fitch. This constitutes a variation from the European RMBS Criteria and has a maximum Model Implied Rating impact of minus five notches (Class C notes of BBVA 2).

#### USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G-10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

#### **DATA ADEQUACY**

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. Fitch has not reviewed the results of any third- party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring. Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is, therefore, satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

## REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

For Santander Hipotecario 3, because the loan-by-loan portfolio data sourced from the European Data Warehouse did not include information about the "occupancy type" of most of the underlying properties, Fitch assumed all loans as "no data" and did not apply any additional FF adjustment to such loans. Fitch views the ResiGlobal model output of this transaction to adequately capture the risky attributes of the portfolio.

#### **ESG CONSIDERATIONS**

BBVA RMBS 1 and BBVA RMBS 2 has each an ESG Relevance Score of '5' for Transaction & Collateral Structure.

BBVA RMBS 3 has an ESG Relevance Score of '4' for Transaction & Collateral Structure and a '4' for Transaction Parties & Operational Risk.

Except for the matters discussed above, the highest level of ESG credit relevance, if present, is a score of '3' - ESG issues are credit neutral or have only a minimal credit impact on the entity(ies), either due to their nature or the way in which they are being managed by the entity(ies). For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located,

the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number

of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <a href="https://www.fitchratings.com/site/regulatory">https://www.fitchratings.com/site/regulatory</a>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
