## OTHER RELEVANT INFORMATION

### EXECUTIVE MANAGEMENT COMMITTEE

After a long professional career of 32 years with the Amadeus Group, Mr. Christophe Bousquet, Chief Technology Officer (CTO) and member of the Amadeus Management Executive Committee will be retiring at the end of this year.

Since joining Amadeus back in 1990, Mr. Bousquet has relentlessly driven Amadeus' technological progress, with constant improvement and innovation. Over the years he has held many important leadership roles across the business. He played a crucial role in the TPF decommissioning process, a historic accomplishment which was finalized after many years in 2017, and just last year he was instrumental in securing the strategic partnership with Microsoft as part of the acceleration to the public Cloud.

Mr. Sylvain Roy will be taking on the role of CTO, leading the new Global Technology & Cloud Platform (GTC) organization, reporting directly to the CEO and effective January 1, 2023. Mr. Roy has worked tirelessly over the past few years in his role as Head of the Technology, Platforms and Engineering (TPE) function, to deliver both system stability and the transformation associated with Amadeus' move to the public cloud. As CTO, he will be responsible for spearheading the overall corporate technology strategy and for leading Amadeus' engineering community. Mr. Roy is the natural successor to Mr. Bousquet as they have worked hand in hand for many years now. He will join the Amadeus Management Executive Committee as he assumes the position of CTO in the new year.
