### **DISCLOSURE OF OTHER RELEVANT INFORMATION**

MSCI (Morgan Stanley Capital International), a global reference for institutional investors and a benchmark for many mutual funds and exchange-traded-funds (ETFs) has announced constituent changes on various of its indices, following its February 2024 review.

Naturgy has been removed as a constituent from various MSCI indices, effective as of the close of the last trading day of February. The exclusion is based on Naturgy's free float market value, which has recently fallen below the minimum thresholds for MSCI inclusion criteria.

The exclusion of Naturgy from the MSCI indices is completely unrelated to its current operational and financial performance, as Naturgy recently reaffirmed its FY23 guidance on 8 February 2024.
