ENTITY/DEBT

RATING

Stable
PRIOR[VIEW ADDITIONAL RATING DETAILS](#)

TRANSACTION SUMMARY

The transactions comprise amortising Spanish residential mortgages serviced by Bankia, S.A. (BBB/Rating Watch Positive/F2).

KEY RATING DRIVERS

Resilient to Coronavirus Additional Stresses

The affirmations reflect our view that the notes are sufficiently protected by credit enhancement (CE) and excess spread to absorb the additional projected losses driven by the coronavirus and related containment measures, which are producing a challenging business environment and increased unemployment in Spain.

We also consider a downside coronavirus scenario for sensitivity purposes whereby a more severe and prolonged period of stress is assumed, which accommodates a further 15% increase to the portfolio weighted average foreclosure frequency (WAFF) and a 15% decrease to the WA recovery rates (WARR). See: "EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic" at www.fitchratings.com.

The notes' resilience is reflected by the Stable Outlooks on most tranches and the revision of the Outlooks on MBS Bancaja 3's class D notes and MBS Bancaja 4's class C and D notes to Positive from Stable. The Outlook revision signals the possibility of upgrades in the medium term, subject to general performance trends.

Portfolio Risky Attributes

The portfolios are materially exposed to loans for the acquisition of second homes (around 35% and 80% for MBS Bancaja 3 and 4 portfolio balance as of December 2020 and January 2021, respectively). Fitch considers these loans riskier than those granted to finance the purchase of first residences, and they are therefore subject to a foreclosure frequency (FF) adjustment of 150% in line with Fitch's European RMBS rating criteria.

Feedback

The portfolios are also exposed to loans granted to self-employed borrowers (more than 20%) and loans originated via third-party brokers (in range of 13% and 18%). These features carry a FF adjustment of 170% (self-employed borrowers) and 150% (broker origination), within the credit analysis.

To address the regional concentration risk of the portfolios (more than 60% is located in the region of Valencia), Fitch has applied higher rating multiples to the base FF assumption to the portion of the portfolios that exceed two and a half times the population within this region, relative to the national count.

CE Trends

Fitch expects CE ratios in both transactions to continue increasing in the short term due to currently sequential note amortisation. However, CE ratios could decline for most tranches if the pro-rata amortisation mechanism is activated, with the application of a reverse sequential amortisation of the notes until targets for outstanding notes as a share of the total notes' balance are met.

For example, MBS Bancaja 3's class A2 notes' current CE of 22.1% could fall to 12.8% if pro-rata amortisation is triggered. For both transactions, the notes will amortise strictly sequentially when the outstanding portfolio balance represents less than 10% of their original amount (currently around 14% for MBS Bancaja 3 and 19% for MBS Bancaja 4).

Payment Interruption Risk Mitigated

Fitch views the transactions as sufficiently protected against payment interruption risk. In a scenario of servicer disruption, liquidity sources provide a sufficient buffer to mitigate liquidity stresses on the notes, covering senior fees and interest payment obligations on the senior notes while an alternative servicing arrangement is implemented.

Liquidity Offsets Payment Holiday Stresses

Fitch does not expect the Covid-19 emergency support measures introduced by the Spanish government and banks for borrowers in vulnerability to negatively affect the SPVs' liquidity positions, given the fully funded reserve funds in both transactions. We view the current and projected liquidity sources as robust and able to offset the temporary liquidity stress driven by the percentage of the loan portfolios that were on payment holidays for MBS Bancaja 3 and 4 as of January 2021.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

MBS Bancaja 3 and 4's class A2 notes are rated at the highest level on Fitch's scale and cannot be upgraded.

For the mezzanine and junior notes, increased CE as the transactions deleverage to fully compensate for the credit losses and cash flow stresses that are commensurate with higher rating scenarios.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

For MBS Bancaja 3 and 4's class A2 notes, a downgrade of Spain's Long-Term Issuer Default Rating (IDR) that could decrease the maximum achievable rating for Spanish structured finance transactions. This is because the class A2 notes are capped at the 'AAAsf' maximum achievable rating in Spain, six notches above the sovereign IDR.

A longer-than-expected coronavirus crisis that erodes macroeconomic fundamentals and the mortgage market in Spain beyond Fitch's current base case and downside sensitivities. CE ratios unable to fully compensate the credit losses and cash flow stresses associated with the current ratings scenarios, all else being equal.

BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Because the latest loan-by-loan portfolio data sourced from the European Data Warehouse did not include information about property occupancy status, Fitch assumed a 34.6% and 80.3% of the portfolio for MBS Bancaja 3 and 4 respectively to be linked to second homes consistent with the exposure reported as of transactions closing dates. This assumption is considered adequate as the granular portfolios comprise fully amortising loans so the exposure to second homes is expected to remain stable over time.

Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring. Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall and together with the assumptions referred to above, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to

Feedback

the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those

subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
